David Martin's Summary

David C Martin is currently Chief Technology Officer (CTO) for Dell's Healthcare & Life Sciences organization and is responsible for defining and executing the technical strategy and tactics of Dell's solution offerings in HCLS.

Prior to joining Dell, Mr. Martin held numerous positions in information technology, including Chief Software Architect for IBM's Healthcare & Life Sciences solutions; world-wide technical lead for IBM's HCLS solutions; world-wide development manager for IBM's business intelligence solutions; CTO for Infomediary Technology Solutions, a distributed Internet CRM start-up; Senior Scientist for Molecular Simulations (now Accelrys); Assistant Director for UCSF's Knowledge Management organization; and Member of the Technical Staff for Sun Microsystems.

During his career, Mr. Martin has played key roles in the development of Berkeley UNIX, CommonLisp Object System, X Window System and Internet browsers, including inventing the method and apparatus for embedded browser applications, a.k.a. "applets" (US patent 5838906).

Mr. Martin received his B.A. degree in 1988 from UC Berkeley and his M.S. degree in computer science from UW Madison. Mr. Martin is a recognized expert in data mining and machine learning, software solutions and information discovery and analysis, including applications in CRM, SFA, supply chain and intellectual property.

Mr. Martin is married with four children and lives with five dogs and a cat in San Jose, California, USA.

David Martin's Experience

CTO Health Care & Life Sciences

Dell

(Public Company, DELL; Computer Hardware industry)

May 2008 — Present (1 year 10 months)

Responsible for future directions for Dell, Inc. in the Health Care and Life Sciences industries globally.

Chief Software Architect

IBM

(Public Company, Computer Hardware industry)

2002 — 2008 (6 years)

Senior Manager

IBM

(Public Company, IBM; Information Technology and Services industry)

April 1995 — December 1999 (4 years 9 months)

Responsible for start-up and development of business intelligence software systems at IBM, including Decision Edge, Intelligent Miner for Relationship Marketing, Intelligent Miner for Data (and Text), Lotus Discovery Server, SurfAid, WebSphere Commerce Analyzer.

Senior Manager

IBM Almaden Research Labs

(Computer Software industry)

1995 — 1997 (2 years)

Assistant Director

University of California San Francisco

(Computer Software industry)

September 1992 — April 1995 (2 years 8 months)

Responsible for the development of Red Sage, GALEN II and the

invention of embedded program objects in distributed hypermedia systems (US patent # 5838906) also known as applets or indicated by the <EMBED> tag

Senior Software Engineer

Molecular Simulations

(Computer Software industry)

September 1991 — September 1992 (1 year 1 month)

Develop software for rational drug design; spin-out of company called Scitegic was re-acquired by new parent company, Accelrys.

Systems Engineer

Innovision

(Computer Software industry)

December 1990 — August 1991 (9 months)

Developed real-time image processing software and associated systems controls.

Research Assistant

University of Wisconsin-Madison

(Educational Institution; Higher Education industry)

September 1988 — December 1990 (2 years 4 months)

Developed object-oriented database user-interface for Exodus database.

Member of the Technical Staff

Sun Microsystems

(Public Company, JAVA, Information Technology and Services industry)

June 1989 — September 1989 (4 months)

Graduate summer internship with Artificial Intelligence team to develop windowing interfaces for CommonLisp Object System.

Member of the Technical Staff

Sun Microsystems

(Public Company, JAVA, Information Technology and Services industry)

September 1984 — June 1985 (10 months)

Developed applications for SunView graphical user interface as part of Systems Group.

David Martin's Education

University of Wisconsin-Madison

MS , Computer Science , 1988 — 1990

Activities and Societies: Hoofers, Riding Club; Sailing Club

University of California, Berkeley

BA , Computer Science, Social Science , 1982 — 1988
